

POSH – Parent Conversation Scripts

- Script 1 – Opening the conversation: 'Hey, I'm not here to get you in trouble. I just want to understand what games and apps you enjoy.'
- Script 2 – Trust reassurance: 'If anything weird ever happens online, you can tell me. You won't be in trouble.'
- Script 3 – Stranger warning: 'Anyone asking to move chats to another app is a warning sign.'
- Script 4 – Privacy check: 'Do you know everyone on your friends list in real life?'
- Script 5 – Gaming check-in: 'What's the most popular game you and your friends play right now?'
- Script 6 – Safety rule: 'If someone asks for photos, personal info, or secret chats, come tell me straight away.'

Goal: Build trust so children feel safe telling parents about online experiences early, before problems escalate.
